The Goal of Education

Ven. Acharya Buddharakkhita
Founder President
Maha Bodhi Society, Bangalore

"...Thomas Eliot, British poet said where life is? It is lost in living. Where is wisdom? It is lost in knowledge and where is knowledge? It is lost in information".

Wisdom is lost when knowledge explodes and is exploited. Then knowledge too is lost in the maze of information. And information increases proportionately with the struggle for living. All gets lost in struggle - wisdom in knowledge and knowledge in information.

In the mad rush for gain, in the involvements of the present, humans lose the meaning and purpose of life. Life becomes like a wasteland and man a hollow man. Conditioned by media and the information technology, the pursuit of knowledge becomes a futile. Even in the seats of knowledge amoral academic learning renders knowledge fruitless because there is no dedication to wisdom. Knowledge bears wisdom only when life is based on values.

Values bring a sense of self-respect, and wisdom provides direction, so that one neither dream nor muddles through life with such a purposeful living one remains awake and happy every moment. This must be the goal of education.

***** Thank you*****

If any parents are found interfering directly or indirectly with the administration of the school, it reserves the right to remove the names of their children from the rolls of the school.

c) School and Home

Partnership between teachers and parents is vital for a good education.

The influence of home and family plays a bigger part than what is learnt in the school, and that the role of the parents in a child's development is as important as that of school. Mahabodhi School counts on the support of parents in its commitment to do the best for its students.

We look to parents to provide a healthy and cheerful home environment, encourage thoughtfulness, tolerance, and responsibility, and foster good social conduct.

d) Parents and Student complaint Procedure:

We provide opportunities for students and parents to express their concerns and are always accessible to them. A culture of open communication and discussion-based approach to resolve matters has been established. In general, it is best for learning relationship if the concern/issue can be resolved amicably through discussions between the student/parents and/or with the appropriate member of staff. However, if these fail then a formal procedure will be enacted.

- **Formal Complaint:** If an informal discussion does not result in satisfactory resolution, the student/parent may file a formal complaint. The complaint should include a clear description of the issue, the individuals involved, and any supporting evidence or documentation in writing and submitted to the School Management.
- **Review by Management:** Upon receiving the recommended actions, the management will interview the matter which may involve gathering additional information, interviewing witness, and consulting with relevant parties. Then they will decide based on the information gathered and take appropriate action.
- **Resolution:** Following the investigation, the school will work the involved parties to find a resolution to the complaint. The resolution will be fair, reasonable, and in accordance with the school's policies and procedures. The decision of the management is final.

e) School Fees Payment

Parents must take the responsibility of paying the fees on time. Timely payment of fees is crucial for the smooth functioning of the school.

Fees will be accepted in the school office from 10:00 am to 4:00 pm on all working days (Monday to Friday) and on Saturday between 9:00 am to 12:30 pm. Fees can be paid through QR Scan also.

Parents failing to pay the fees on time will be issued notice from the school. If the payment is not done after issuing the notice, then the management will forward the names of the parents to B.E.O and D.D.P.I directed by the D.C for further action.

IMPORTANCE OF HOME WORK

Always make a note of what home work has been set, the dates set and the date of completion. This information is recorded in the dairies provided. Home Work is an extension of the classroom work. The difference is that the student is working alone at home and the standards are within the ability of the student.
